

ELECTORAL REGISTRATION POLICY

This statement sets out how INTO facilitates the electoral registration of eligible students.

Overview

Condition E5: The provider must comply with guidance published by the OfS to facilitate, in cooperation with electoral registration officers, the electoral registration of students.

INTO educates eligible students about their ability to participate in elections during their stay in the UK, and signposting them to relevant resources enabling them to register to vote, should they so wish.

Educating eligible students

INTO identifies students who may be eligible to vote in some or all UK elections prior to their arrival into the UK to commence their study. Sessions on the UK electoral system, including how to register to vote, are held for these students as part of their induction programme at the start of each course intake.

Signposting to relevant resources

In addition to the targeted sessions on voter registration for eligible students detailed above, these students receive additional information included in their course handbooks, which are provided to all students at the start of each academic intake. Information provided will be sourced solely from legitimate outlets such as the UK government and Electoral Commission's own resources on voter registration and the UK electoral process. Material included in handbooks for eligible students are reviewed on an annual basis to ensure accuracy. Electoral Commission factsheets, posters and other material are made available for the facilitation of voter registration by eligible students.

Appendix A: electoral eligibility of different nationalities in English elections

Nationality → Election ↓	British	Commonwealth	EU citizen	Qualifying foreign national
UK Parliamentary	Yes	Yes	No	No
Local Government	Yes	Yes	Yes	No
