

University Access Centre (UAC)
Hanoi
Vietnam

- **External UAC view** - Located in the heart of Midtown Hanoi, on the ground floor of a highend residential complex, near to shopping malls, office towers and schools. The complex includes a 5-star hotel, where visitors are recommended to stay.

- **External UAC view** - Occupying the corner shophouse of The Five Residences Hanoi, the UAC back-lit logo is clearly visible from both the busy main street as well as a side-alley, buzzing with coffee shops and street food stalls.

- **External UAC view** - In addition to being strategically located in the city, the centre neighbours a popular local coffee shop, well-trafficked by students. The spacious outside area invites people to stroll around the complex and relax.

- **External UAC view** - The UAC brand is also enhanced by the centre's unique interior and sleek design concept which is clearly visible from the outside and often attracts the attention of passing pedestrians, maximising footfall opportunities.

- **Internal UAC view, reception area** - Visitors are greeted by an air-conditioned, stylish, open space with plenty of room for both drop-in visitors as well as organised events and counselor training sessions.

- **Internal UAC view, reception area** - 98-inch display screen on loop 24 hours a day showcasing our university partners. This casual multifunction area can be used for discussing study options and CDI workshops.

- **Internal UAC view, reception area** - The open nature of the access centre can create an even larger multifunction space. Adjacent to the entrance, the centre has secure storage lockers and a dispenser where both hot and cold water is available for visitors.

- **Reception area, storage** - Clean lines, modern and secure. Student lockers to be used for periods of self study or during Computer Delivered IELTS testing.

- **Internal UAC view** - A combination of stylish high-tables, comfortable booth area and casual seating gives an impressive depth to the space. The clean-cut interior is complemented with modern wall imagery and a range of natural plants.

- **Internal UAC view** - IT savvy, modern and vibrant. The unique UAC design and concept brings students and educators closer together through technology. Complimentary Wi-Fi and power outlets are available throughout the centre.

- **Internal UAC view, waiting area** - With the glass doors closed, the open UAC space may serve as a waiting or lobby area when the multifunction room is being used for CDI examinations, conferences or meetings.

- **Internal UAC view, hot desks** - With the bifold doors open, the UAC becomes one large unit, made up of reception area, co-working space and hot desks for staff. Visible in the background is the “blue room”, used for IELTS oral exams, interviews and meetings.

- **Interview room** - Stylish blue design theme is combined with a soft gray carpet and wall cladding. Plenty of space for test takers, examiner and chaperone. The room can also be used for meetings and student project work.

- **Interview room** - Spacious and soundproof, the room is approved for IELTS oral exams/speaking tests. The window facing the open UAC space is equipped with roller blinds to also enable privacy when needed.

- **Multifunction room** - 12 workstations with dedicated power outlets and LAN connections. Without desktop dividers, the room is a hot desk area, open for staff, university representatives and visitors.

- **Multifunction room** - Soundproof and equipped with multiple smart screens that link to the centre internet and allow for seamless connectivity to laptops and other devices. The area can be separated off as a space for teaching, conference calls and larger meetings.

- **Multifunction room** - With bifold doors shut, blinds rolled down, dividers installed, and computers set up, the area becomes a dedicated Computer-Delivered IELTS (CDI) exam room.

- **Multifunction room** - Echo absorbing interior, comfortable office chairs and modern technology makes this multifunction room a stand-out testing facility which can be used for a variety of secure examinations.

- **Conference room** - Fully equipped with smart screen, which comes with HDMI/AirPlay connectivity, printer and landline. This space holds up to six people and can be used as a staff office as well as for online and offline meetings.

- **Conference room** - The panoramic windows facing the green exterior fills the room with natural daylight. All windows are fitted out with blinds to ensure privacy when needed.
