Seeing how much progress they can make in just ten intensive weeks is really rewarding."

Kes Poupaert  
Academic English teacher, INTO Manchester

"Studying Academic English was quite different to studying IELTS. For me, the most important skill I gained was how to write in a more academic style. Our teachers placed a lot of emphasis on this skill as it's essential for successful university study. Studying Academic English helped me adapt to the style of teaching and learning at UK universities. Now I feel I will achieve better grades."
