Careers in Supply Chain Management have been growing as markets become fiercely competitive, retailers fight to stay relevant and e-commerce thrives. Efficient supply chain is crucial in order to satisfy the consumer and keep a business growing. Here at Saint Louis University's Richard A. Chaifetz School of Business, we provide you with the skills and resources you need to succeed in this field.

WHY STUDY SUPPLY CHAIN MANAGEMENT AT SLU?

BECOME A LEADER

You will learn key business processes that drive profitable business growth, in order to hold a sustainable competitive advantage in the business world.

LEARN NEW STRATEGIES

You will use quantitative and computer models designed to provide and distribute the desired quantities of the appropriate goods or services to the right location at the desired time.

GAIN REAL EXPERIENCES

You will gain additional exposure to the design, implementation and management of efficient ways to integrate the flow of materials and information among suppliers, manufacturers, warehouses and stores. The curriculum focuses on the theoretical, as well as the applied supply chain and logistics skills that are essential in today's competitive global supply chain environment. As part of this curriculum, students work with real world companies on consulting projects.

CENTER FOR SUPPLY CHAIN EXPERIENCE

SLU's Center for Supply Chain Excellence offers training and education about various supply chain tools and activities, such as supplier relationships, purchasing management, operations and inventory management, logistics and transportation, quality measurement and information technology through programs, events, publications and interactions with corporate supply chain professionals.
